Pillar 4: International Consulting Project

Apply your Knowledge and Skills

Designed to provide participants with a collaborative, multidisciplinary and intercultural work experience on a real-life strategic challenge, the International Consulting Project (ICP) puts into practice the concepts and theories acquired during the EMBA.

Within a group, you will perform an in-depth analysis of a situation or development challenge faced by a company and make recommendations for actions that can realistically be implemented by the firm.

This 14-month team project allows you to use and consolidate your understanding of the concepts and tools taught during the programme.

The outcome of the ICP is a series of recommendations that the company can implement in order to meet the strategic challenge at hand.

Examples of International Consulting Projects

• Creation of a business plan for a new activity
• Reorganisation of a distribution network
• Market or product diversification
Objective
Barilla ICP was asked to design the business model for the expansion of the Barilla pasta and sauces in the most important Asian megacities.

Main challenge
The team showed that the real challenge Barilla was facing in this part of the world was a cultural one: Barilla needs to instil a pasta culture and pasta demand locally first, before any other business consideration.
The participants conducted an in-depth market analysis using the application of several tools, proposing an approach far different from the expectations of the client.

Results
The team recommended a food-service business model by developing Barilla-operated flagship restaurants in prime locations and pasta bars in business centres. This will allow the gradual growth of a pasta culture and, thus, an awareness of the Barilla brand.

“
The team completed a thorough analysis of the markets and the target consumers, combined with an excellent strategic framework in terms of business modelling and planning. The outcome shows an outside-in and fresh perspective, as well as the diverse experience of the team members. The keen attention paid to the needs and desires of the local consumers has led the team to unconventional solutions and business models.”

Mariapaola Vetrucci,
Chief Strategy & Business Portfolio Officer • Barilla

Executive MBA testimonials

Maria Merry Del Val
GMP 2016 • EMBA 2018, Spanish
Director • Royal Bank of Scotland

"I first joined the GMP programme, which was an exceptional experience. I have chosen to continue my executive education as I believe this is a life-changing process that can only be rounded through the completion of the Executive MBA. Coming from a purely financial background, the Executive MBA is broadening my perspectives, enhancing my self-confidence and providing me with leadership and strategy skills that I previously lacked, all of it in an international atmosphere that allows participants to exchange a wide range of knowledge and experiences. Finally, the ESCP Europe Executive MBA is very conscious of the role of women in leadership, and I very strongly recommend it to any woman who is interested in developing further into leadership roles."

Elsa Barberio-Dehornoy • EMBA 2016, French
Chief HR & Finance Officer for General Secretary • SNCF Group

"Beyond refresher trainings in fundamentals for an executive leader (such as strategy and finance, for example), the Executive MBA will remain a unique experience for two main reasons: the richness of cross-cultural exchanges makes the itinerant track an innovative formula for its diversity of participants, teachers and learning environments - it’s a real window opening to the world; but also for the opportunity to start work on oneself, essential for becoming an executive leader. This time for myself will afford me to “blow up locks”; to free myself and finally to significantly open up the scope of possibilities. It gives a fresh impetus to a career!"

Vittorio Magnaghi • EMBA 2015, Italian
Marine and Industrial EMEA Sector manager • GURIT

"I joined the EMBA when I was 43 in one of those moments when you decide you need to change the direction of your professional life, for whatever reason you want to do it. Going ‘back to school’ was the path. ESCP Europe’s Executive MBA was the tool. Throwing yourself into a total new environment, with tens of classmates sharing similar ambitions, expectations, with a true desire to expand their professional experiences and skills beyond their boundaries and challenge themselves into new ventures, is what makes this experience enriching and worth doing."

Barry Rodgers • EMBA 2018, English
Corporate Strategy Senior Manager • Etihad Aviation Group

"My EMBA experience was everything I had hoped for, an unparalleled academic and social experience that has enabled my professional growth during the course and into the future. As an expat in the Middle East, I was immediately drawn to the international aspect of ESCP Europe and the ethos of the itinerant track in particular. Courses and seminars in 8 cities across Europe, the US and China with over 100 colleagues from diverse backgrounds and industries broadened my perspectives, while equipping me with the skillsets and knowledge required to progress my career. Having a background in technology, and recently strategy, courses on financial subjects from the wide-variety of electives were the most challenging and brought the most benefit to me, and I would recommend the ESCP Europe EMBA in particular for the ability to easily adapt my personal curriculum during the EMBA once it became clearer where I needed to focus my development."
